General information

The organizers cordially invite you to the largest vacuum-related meeting in Europe in 2012 - a quadruple JVC-14 / EVC-12 / AMDVG-11 / CroSloVM-19 meeting. The four events are merged together into a single conference, with a unified program and lectures, and one registration for them all. Dubrovnik, a traditional meeting place for the international cooperation offers an excellent and stimulating environment for the conference of high scientific merit which will attract participants from all over Europe. The venue of the conference, a 5 stars hotel Rixos Libertas, provides excellent facilities for the smooth presentation of the conference scientific content, as well as for the accompanying exhibition of vacuum equipment and pertinent publications. A world-renowned scientists will present plenary lectures, a number of internationally acknowledged researchers will be invited speakers, and much more oral and poster contributions will provide insight into the state-of-the-art of science and technology in the fields powerfully affecting the way how we live and produce. For the scientists, researchers, engineers, teachers and students interested or active in any of the vacuum-related topics, the JVC-14 / EVC-12 / AMDVG-11 / CroSloVM-19 meeting at Dubrovnik is place to be in early June 2012.

Conference topics

1. Applied Surface Science
2. Nanometer Structures
3. Surface Engineering
4. Thin Film
5. Electronic Materials & Processing
6. Plasma Science & Technique
7. Surface Science
